

## **Bruce Cron**

*My name is Bruce Cron and I am the current councilor for Division 5 of Hoodoo 401. I am seeking your support in the upcoming local election to be re-elected as your councilor. I am a full time resident at Wakaw Lake and reside on Nickorick Beach. I have been a resident at the lake for over 16 years.*

*I am a graduate metallurgical engineer and have worked in many plant operations and provided consultant services to the mining industry across Canada. My last employer was Cameco, Rabbit Lake Operations, where I was a general mill foreman for 17 years. I retired when the mine and mill operation shut down and went to care and maintenance. I still provide service as a metallurgical advisor when the opportunity arises.*

*As a member of council I represent the rate payers in Division 5. Any concerns brought to me or raised to the administration are discussed at the council meeting and decisions are provided by the council as a whole based on the current bylaws. As a member of the Hoodoo council, I attend as a member the North Central Transportation Planning Committee meetings and am a member of the Wakaw Lake Regional Park board of directors representing the council. Because of my service as an employer co-chair on the Occupational Health and Safety (OHS), committee at Cameco, I am an employer representative for Hoodoo on their OHS committee.*

*During my term I have attended several issues that have affected the rate payers, and have assisted in getting corrective actions completed. I have enjoyed my time on council and wish to continue in this position for another term.*
